# PROGRAM & PORTFOLIO MANAGEMENT CONSULTING

## Talent that Delivers...

*Program, Portfolio disciplines are critical to IT Value Delivery. We have the people, process and technology expertise to help your team optimize this capability fast.*

The Program & Portfolio Management Practice at ASG provides IT Program, Portfolio, and Project Management Talent with the seasoning and experience to help mature these critical disciplines fast. We've been experts in this category for years, and now under our Strategic Services Group, we offer an integrated set of services that include PMO Configuration Consulting, tools selection and implementation, methodology development, and a host of program and project management training services.

Whether you're starting a PMO or looking for help to gain control of a challenged project, we've got the expert assistance you need. PMO Services include PMO formation, management, portfolio definition, project prioritization and more.

We offer methodology and process accelerators, along with "been there, done that" expertise that can accelerate your efforts to improve IT and Business alignment. For more information, have your Account Executive schedule a meeting with our PPM Practice Leader. We have the knowledge and experience required to get the job done.
